

ISO 22301 Business Continuity Management

Minimize the impact of disruptive incidents

ISO 22301 Business Continuity Management

Understand and prioritize the threats to your business with the international standard for business continuity. ISO 22301 specifies the requirements for a management system to protect against, reduce the likelihood of, and ensure your business recovers from disruptive incidents

Measurement matters - a BSI whitepaper for business

Get a better understanding of how you can make business continuity measurement work for your business. This new whitepaper helps to distil these complex requirements. Business continuity experts help clarify what the requirements mean and our client case studies help bring it to life.

Client Case Study - Vauxhall

Automotive leader, Vauxhall, strengthens business resilience and builds client confidence with ISO 22301 certification. As well as using it to meet General Motors' corporate policy requiring a business continuity management system, Vauxhall have built on its existing continual improvement culture and enhanced it with a business continuity mentality. ISO 22301 isn't just a nice certificate on a desk – Vauxhall really live this.
